

IMPORTANT SAFETY INSTRUCTIONS

1. Clean the machine regularly with a soft, dry cloth. Do not use any liquids or chemicals to clean. The grill may be vacuumed to remove excessive dust.
2. The unit should not be used near water, such as a bathtub, swimming pool, or basin to avoid electrocution.
3. Never drop or insert objects into any opening of the device.
4. Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
5. Avoid placing the machine in areas that are exposed to direct sunlight or close to heat-radiating products such as electric heaters.
6. Avoid placing the machine in areas that are dusty, humid, moist, lack ventilation, or are subject to constant vibration.
7. The machine may be subject to interference from external sources such as electric motors, transformers or other electronic devices. To avoid distortion from such sources, please make sure the device is placed as far away from them as possible.
8. Do not apply excessive force when using any of the switches or controls.
9. Power cords should be routed to avoid being walked on or pinched by items placed on or against them.
10. Disconnect the power supply of the machine when it is unused for an extended period of time or when moving the device.
11. The unit should only be used with the power adapter provided.
12. Never operate this device if it has a damaged cord, cable or housing.

GETTING STARTED

Plug it in

The device does not have a built-in battery. Please connect the device into an AC wall outlet using the power adapter provided.

Power On/Off

Press the power button to turn on the device. When the device is on, a blue power indication light turns on. You can press the power button again in order to turn off the device.

Play/Pause

Press the play/pause button to start playing soothing sounds. You can always use this button to pause or resume playing soothing sounds.

Previous Sound

Press the previous button to select previous soothing sound.

Next Sound

Press the next button to select next soothing sound.

Volume Control

Use the volume knob to control speaker volume. Rotate clockwise direction to increase volume or rotate anti-clockwise direction to reduce volume.

Night Lamp

This soother comes with a night lamp. You can use the toggle switch to turn it on or off. Push the switch to up direction to turn the lights on or push it down direction to turn the lights off.
